## Professional Profile

I am a person that has multiple skills planning, designing and developing software projects using .NET platform, I have a great management of difficult situations, I can solve a wide variety of problems under any kind of pressure. One of my biggest advantages is providing ideas that can improve any project adjusting to the standards of quality. I am responsible and cautious while following my assigned projects achieving all the indicators given by the organization.

## Professional Experiences

My first laboral experience was for six months working as a software developer for the company "Fabrica de Software" at SENA, during this period of time I was involved in the development of web services for the recognized enterprise.

After my first laboral experience, I worked around 5 years at "Estrategia Segura SAS" where I was in charge of developing web applications, mobile applications and desktop applications using .NET, some of my Works are: Digital Shifter, CRM and Branch office for cooperative financials.
